Global Life Sciences & Healthcare Forum 2023

EVENT · 12 OCTOBER 2023, 12:00 - 18:30 UTC +02:00
nhow Amsterdam RAI, Amsterdam

Blurring Boundaries - Exploring the convergence of life sciences and law

Mark your calendar for a ground-breaking event at the intersection of life sciences and law! We are excited to announce '**Blurring Boundaries**', a one-of-a-kind meeting aiming to navigate the fast-paced changes in the life sciences sector.

In a world where technology and society rapidly shape the life sciences landscape, there exists a significant gap between these advances and the existing rules and regulations. '**Blurring Boundaries**' brings together esteemed legal professionals, visionary life scientists, and influential industry leaders to bridge this gap and explore the challenges and opportunities arising from this convergence.

Join us for a captivating experience where you will:

- **Uncover the latest breakthroughs:** Dive into the forefront of life sciences advances, including biotechnology, genetics, pharmaceuticals, and medical devices
- **Address the regulatory gap:** Engage in interactive workshops to bridge the divide between rapid innovation and the development of legal frameworks
- **Navigate global challenges:** Explore the impact of globalisation, ethical considerations, privacy concerns, and societal implications on the life sciences sector
- **Foster collaboration:** Connect with legal and scientific minds, exchange ideas, and build valuable relationships
